

National LGPS Seminar

Thursday 26 March 2009

Local Government Pension Scheme (LGPS) Representation and Governance

UNISON has been campaigning for improved representation on the LGPS for the last two years and some progress has been made. The Department for Communities and Local Government (DCLG) is currently consulting on new regulations that will have some effect on governance.

This seminar is being held to explore what the DCLG consultation is for and how far away the government is from creating statutory recognition rights for scheme members.

The seminar will have workshops on the key organising issues and report on research undertaken by the national union on investments the LGPS authorities have made in private contractors, PFI programmes and private equity.
