LGPS Issue no. 10

## **POWERPOINT PRESENTATION ON LGPS PRINCIPLES AND TIMETABLE**

Attached you will find a PowerPoint presentation on the agreed principles and timetable for negotiations over the LGPS. Please use the presentation in your Regions and branches to explain to members what is included in the agreement.

During the negotiations we will be maintaining a strong campaigning stance, putting pressure on MP's, employers and councillors to ensure that the outcomes of the negotiations are favourable to our members.

In the meantime, it is important to note that we are still in dispute with the government over their proposals and that the industrial action ballot results are still 'live'. **If the negotiations fail to deliver an acceptable outcome to members, then we will consider further action.** Members will be fully consulted at each key stage of the negotiations. There will be a UNISON lay member representative involved in the talks.
