Dear Colleague

Personal Injury Settlements – February 2012

Please find attached a breakdown by branch of Personal Injury Settlements for **February 2012**. The breakdown shows the amount of money which UNISON recovered for members in Personal Injury Claim Settlements. In the Region members received **£80,321.90** in compensation for personal injuries.

The information is very useful in publicising what UNISON does for its members and can also be used in recruiting new members. Branches could, for example, use the information in your newsletter or put it on your website. You could also, obviously with the consent of the member concerned, feature individual cases. It is likely that the local media will be interested.

The information also may identify areas where the branch needs to look at raising concerns about safe working practices with employers – prevention being the best policy.

I hope that you find the information useful.

Yours sincerely
