

# A license to pollute

# Please sign EDM 947

Government plans to cut 1,500 Environment Agency jobs (around 15% of the workforce) will create a license to pollute. Fewer staff means a reduction in investigations, clean ups and prosecutions. Staff cuts increase the risk of dangerous chemicals and pollutants finding their way into our lakes, rivers and our natural environment.

These government cuts will expose us all to greater hazards and increased flood risk. They make it harder for the Environment Agency to respond to emergencies and give staff less chance of preventing incidents from happening.

I believe these planned cuts are dangerous – the government must think again. As your constituent I am asking you to join me in putting pressure on the government by signing **Early Day Motion 947**.
