► **The demonstration and march on 4 March are your opportunity to show support for the NHS.**

UNISON is marching because:

- the NHS is being crushed by the government's refusal to provide more money where it's needed
- cuts to hospital beds and staff numbers driven by the need to save money are damaging services
- staff are left overworked and undervalued as years of pay restraint take their toll.

While the government lets social care disintegrate even further, the pressure mounts more and more on the NHS.

The government's failure to act now is destroying the NHS.

We cannot let this happen.

Join us on the March for the NHS.
