

National Retired Members' Conference 2017

Prioritisation Process

The Standing Orders Committee have agreed to trial a prioritisation process for National Retired Members' Conference 2017.

- All motions admitted to the preliminary agenda will be eligible for the prioritisation process.
- Regional retired members' committees and the national retired members' committee have been asked to prioritise up to six motions, allocating points from 1 to 6 in line with their preference.
- Regions have been asked, wherever possible, to consult with active branch retired members' groups in their region, as well as those branches with members on the regional retired members' committee, in determining these priorities.
- The deadline is 12 noon on Wednesday 16 August 2017 (the same deadline as amendments to motions).

If your branch retired members' group wish to be involved in the prioritisation process, please contact your regional retired members' contact at regional office.

Please note that it is the role of the SOC to enable conference to transact its business effectively, and the committee reserve the right to determine the final agenda, but will take into account the responses received in doing so. The final agenda will be published on Wednesday 13 September 2017.
