

Unionised workplaces are safer workplaces

It's no secret – workplaces where there are active trade union safety reps are twice as safe as those without.

Where health and safety isn't taken seriously staff get injured, become ill, are left with a permanent disability, have their working lives cut short or sometimes die.

International Workers' Memorial Day

On 28 April each year - International Workers' Memorial Day - we remember the dead and fight for the living.

UNISON makes a real difference

Our campaigning for better conditions and your safety reps hard work, make your work safer and healthier. Together we challenge bad employers and work with good ones.

UNISON takes your health and safety seriously. You should too.

Not a member? Join online today at joinunison.org or call us free on **0800 0 857 857** or speak to your rep.

Find out more about International Workers' Memorial Day at unison.org.uk/events

You can also contact your safety rep if you have an issue you want to raise or would like to get involved in improving health and safety where you work.

Your safety rep is:
