

UNISON is leading the campaign for a pay rise for ALL NHS workers

NHS staff recently received a pay rise. But if you work for a company the NHS contracts or owns, you deserve a pay rise too - and UNISON are fighting to get you it.

If you're a porter, a catering assistant, a cleaner or admin staff, regardless of what logo is on your uniform, you all help to deliver and support the health service. You should earn the same as someone who is employed directly by the NHS if you are both doing the same job. But at the moment so many of you aren't being paid the same as your NHS employed colleagues.

That isn't fair. We are one NHS team.

We need you to show your support and join the fight for your pay rise.
