

Paying off?

Tell us about being a healthcare student

What's the best thing about being a healthcare student?

Are you enjoying your studies or are you thinking of giving up? Why?

What are the challenges you face?

Are your clinical placements working for you? Is there enough support when you are out there getting professional experience?

Is money tight? Are you coping financially? Do you have a job as well as studying?

UNISON, the biggest trade union in health, wants to know what life is like for all healthcare students. To find out we are asking you to give us 10 minutes of your time to tell us how it is for you. Just go to unison.org.uk/payingoff to take part.

Among other things we want you to tell us about:

- your placement
- your finances
- your learning
- what worries you

Your experience is key to our future campaigning as we look at ways to improve the lives of all health students. That's why we need to know what you think. Please get involved.

We would still like to hear about your experience if you're not a UNISON member.

Go to unison.org.uk/payingoff and take part.
