USE YOUR VOTE ON 23 MAY

**Elections for the European Parliament are taking place across
the UK on 23 May. Your vote matters.**

Not many people expected that these elections would happen, but while we are still in the European Union it is important that we choose representatives whose views and values are closest to our own. These elections are being seen by extremists as an opportunity to increase their support. They will make gains unless those who oppose them turn out to vote.

Voting on 23 May is also a chance to vote against austerity.
Polls are open from 7am – 10pm.
