

UNISON Equality Unit: meet the team

UNISON equality unit is UNISON's specialist team that advises on strategic equality priorities. We work directly with UNISON's six equality groups - **Black, disabled, LGBT+, women, young and retired members**; with the NEC and national service groups. We provide guidance and support to branches and regions. We assist them in promoting equality and tackling discrimination in their recruitment and organising, bargaining, campaigning and in how this work is carried out. We help UNISON meet its rulebook commitments on equality and anti-discrimination. We encourage participation and tackle under-representation. We support lay democracy, including the national equality conferences and committees.

Gloria Mills, National Secretary, Equalities
